Journal Issues

Every issue of the *Journal of Geolocation, Geo-information, and Geo-intelligence* will be published every November.

Every issue must contain a minimum of five journal papers.

There are two categories of journal papers: research papers and technical reports. Research papers are the categories of journal papers that are mainly focused on original, novel, and innovative research in the field of geolocation, geo-information, and geo-intelligence. Technical report journal papers are of a descriptive nature of mathematical and analysis models, simulations, and experimentations in the field of geolocation, geo-information, and geo-intelligence.
