Giffet® Aeronautical Navigator

Giffet® Aeronautical Navigator will have the ability to ability to read Digital Aeronautical Chart® anywhere from the 29 Digital Aeronautical Chart geographic regions, contained between 90° North latitude and 90° South latitude, and support a variety of Geographic Information System applications and also process GPS/GNSS/Pseudolite data and enable safe and very accurate aeronautical navigation for the US Air Force, US Navy, Government agencies and government/US military sponsored contractors. It is also anticipated that Giffet® Aeronautical Navigator will enable public sale of Digital Aeronautical Chart® in US airspace and worldwide.
